

# HATHER PLANT HIRE

01709 528585

## History of Hather Plant

Hather Plant Hire was founded over 35 years ago. Starting with just 1 machine, the company now has over 450 in the fleet.

Our family-run plant firm caters for a vast array of projects. We have backhoe loaders, bulldozers, dumptrucks, excavators, rollers, telehandlers and many more machine types available to hire.

Based in Rotherham (Yorkshire), we are housed on an 11 acre site. We employ over 150 staff - including call handlers, fitters, operators and wagon drivers.

We offer operated and self-drive hire on all machines. Meanwhile our low loaders travel the country throughout the year to ensure your machines arrive on time.

Topcon – “You get the ultimate productivity tool for every task at any jobsite. On-board information gives your operator the overview of what to do and possibility to work towards the greatest accuracy. Topcon excavator systems use rugged tested components, ready for any work site condition, including digging under water. Our GPS systems track every satellite in the sky, for maximal uptime even with a limited view of the sky.”
